ANUSHREE BHURE

SALESFORCE PLATFORM ENGINEER / BUSINESS ANALYST / APPLIED AI BUILDER

Tempe, Arizona / (623) 200-1275 / anubhure98@gmail.com / LinkedIn / GitHub / Portfolio

Salesforce professional with four years of enterprise delivery and current experience supporting Agentforce and CRM operations for 100K+ student records. Translates business needs into dependable workflows across Apex, LWC, CPQ, Flow, integrations, UAT, automation and data quality, with hands-on depth in GraphRAG, cloud infrastructure and production-minded evaluation.

EXPERIENCE

Salesforce Business Analyst Aide

Mar 2026 - Present

ARIZONA STATE UNIVERSITY - ADMISSION SERVICES

- Configure and support live Agentforce and CRM operations across 100K+ student records; translate admissions needs into workflow and data-quality improvements.
- Built a rubric-based spam-review system for 2,000+ weekly inquiries, improving consistency in operational triage.
- Identified 300+ graduate-application defects before deployment, coordinated UAT feedback and received the ASU SUN Award.

Application Development Analyst

Mar 2023 - Dec 2024

ACCENTURE

- Designed Salesforce CPQ pricing flows in Apex and SOQL, reducing quote cycle time 25% and rework 30%.
- Built reusable Lightning components and MuleSoft-backed analytics; reduced data latency 50% and production incidents 35%.
- Coordinated telemetry, Selenium regression suites and CI/CD quality gates across three defect-free releases.

Application Development Associate

Jan 2021 - Feb 2023

ACCENTURE

- Delivered eCommerce and Service Cloud features across Apex, LWC, Aura, Flow and SOQL.
- Expanded automated regression to 90% coverage and reduced manual testing effort by 85% with Selenium.

SELECTED SYSTEMS

CPQ Workflow Modernization
Salesforce CPQ, Apex, LWC, Flow, Selenium / 25% faster quote cycle / 30% less rework

AstraNode - NASA Space Apps Global Nominee
Citation-grounded GraphRAG explorer connecting 608 NASA publications through FastAPI, Gemini/LLaMA, Neo4j and React; built in 48 hours.

Streaming Graph Pipeline
Processed 3,627,882 source rows through Kafka and Kubernetes into live Neo4j analysis; earned 100/100.

Elastic Face Recognition on AWS
Built a custom Python autoscaler from zero to 15 EC2 workers; returned 100/100 correct predictions at 0.961 seconds average latency.

Stealthy RAG Poisoning
Owned the detection and defense layer across Isolation Forest, LOF, MLP and perplexity analysis on a 5,000-document knowledge base.

CREDENTIALS

- Salesforce Administrator
- Platform App Builder
- Salesforce AI Associate
- ASU SUN Award

CORE SKILLS

Salesforce
Apex, LWC, Aura, CPQ, Flow, SOQL, Agentforce, MuleSoft

Business Analysis
Requirements, process mapping, acceptance criteria, stakeholder alignment, UAT

AI + Data
Python, PyTorch, RAG, LangChain, Neo4j, scikit-learn, pandas

Cloud + Systems
AWS, Docker, Kubernetes, Kafka, Helm, FastAPI, REST APIs

Quality Engineering
Selenium, pytest, CI/CD, telemetry, regression strategy, validation

EDUCATION

M.S. Computer Science
Arizona State University / AI specialization / GPA 3.81 / Expected Dec 2026

B.E. Computer Engineering
Pune University / First Class with Distinction / 2020

ADDITIONAL EXPERIENCE

Graduate Writing Tutor
ASU Academic Support Network / Oct 2025 - Mar 2026
Improved writing clarity 30%, argument coherence 25% and independent revision skills 40%.

Student Worker
Aramark / ASU Athletics / Aug 2025 - Present
Supported 500+ attendees per game; helped reduce wait times 30% and improve team efficiency 25%.

RECOGNITION

NASA Space Apps / 2025
Phoenix winner / Global Nominee / Galactic Problem Solver

Accenture / 2022
Respect for the Individual / Championing Equality
